## "Casala chairs bring new life to Victorian Church"

Mossley Hill Church / Liverpool / UK

Lynx I chairs were selected after some extensive research to replace wooden pews at Mossley Hill Church in Liverpool. The chairs were chosen for their innovative, quick and easy linking system, as well as their exceptional comfort and design. The wooden shell compliments the sanded and resealed floor and the overall contemporary look works perfectly in the Victorian building. The red upholstery gives a vibrant and uplifting appearance.

The chairs are set out in theatre style for most services, and are very easily rearranged for different functions. The chairs flexibility has allowed the Church to hold completely different events, such as; dinners, auctions, social events and meetings. "The new chair scheme has given new life to the Church with the potential for it to be used 7 days a week, by the congregation and the local community." David Bishop – Church Committee Cobra chairs are also used in the memorial chapel.

### KEY CRITERIA

Flexible use  
Durability  
Linking system  
Stackability and storage  
Comfort and design
